

In the Specification

Please amend the paragraph beginning at page 5, line 3 of the substitute specification filed on July 11, 2002 as follows.

- 61
-
- figure 3 is a simplified block diagram of the process for manufacturing a door like that illustrated in figure 2 [[.]] ; and
-

Please add the following paragraph at page 5, line 5 of the substitute specification.

- 62
-
- figure 4 is a schematic illustration of the frame connected to the fixed window panel at only the inner surface of the fixed window panel.
-

Please amend the paragraph beginning at page 6, line 1, of the substitute specification as follows.

63

The upper part 22 is provided with a single-piece, fixed window panel 222 made of glass or a similar material, and a movable window panel 223. A frame 221 fitted on the inside face 222a (facing the inside of the vehicle), as schematically illustrated in Figure 4, surrounds the window panel 222. Obviously, the frame 221 could be reduced to only two approximately vertical uprights, possibly over only part of the height of the window panel 222.

In the Drawings

Two replacement drawing sheets are included herewith. The first replacement sheet includes Figures 1 and 2 and incorporates the approved proposed changes filed on March 26, 2002.

The second replacement sheet includes changes to Figure 4. Figure 4 is amended to include a reference numeral indicating the surface connecting the fixed window panel and the frame.
